PROJECTS

NuzRun.com

Developed a web application for the newest Pokemon games that randomly generates a Pokemon for each area of the game. Also takes into account different options that change the outcome of the roll. Learned a new technology to create this project. (React, HTML, CSS, JavaScript)

Personal website

Developed a personal website to host my projects, resume, about, and contact page. (HTML, CSS, JavaScript) https://piersoncourtois.me/

WORK EXPERIENCE

Panda Express, Quincy, IL — *Shift Lead*

MARCH 2021 - PRESENT

Learned how to independently run a store and entrusted with management responsibilities.
